

**mAssetTag**  
 Mobile Asset Tracking

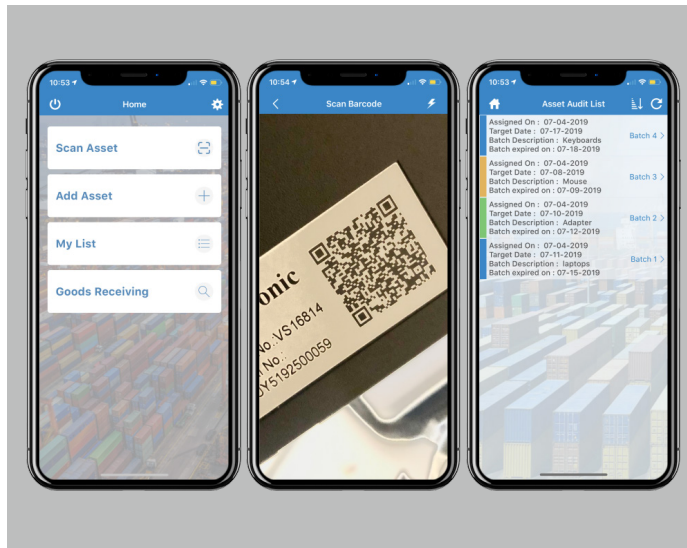

**SAP® Certified**  
 Mobile App

**SAP® Certified Mobile App – developed on an SAP Cloud Platform, works on SAP ECC and S/4HANA.**

## mAssetTag – an Overview

Innovapptive's mAssetTag gives organizations greater control and efficiency when planning, acquiring, auditing, inventory and resolving discrepancies of your fixed assets. The solution offers an end-to-end fixed asset-tracking solution that tightly and seamlessly integrates with back-office systems of record (like SAP), delivering total visibility to identify lost or stolen assets, eliminate insurance or tax overpayments, and calibrate business activities with real-time inventory levels.

### Plan, Acquire, Audit, Inventory, Report & Resolve Fixed Assets

- **Submit & Approve Fixed Asset Capital Requests**
- **Real-Time field Good Receipts against a Capital Request Purchase Order**
- **Schedule Global Fixed Inventory Schedule, Timelines and Owners**
- **Automate Fixed Asset Physical Inventory reconciliation by scanning fixed assets**
- **Capture, tag, scan and update records without human errors or duplications**
- **Eliminate paper**, error-prone count sheets and Excel spreadsheets
- **Customize mobile screens** to suit your business needs with patented low-code/no-code configuration technology
- **Monitor and track in Real-Time Fixed Asset Inventory**
- **Resolve in "Real-Time" Asset Condition and Location**
- **Compile an accurate inventory** of fixed assets

## What Users Are Saying About mAssetTag

*Thanks to mAssetTag, our financial reporting is more accurate, reflecting what we actually possess. We now have a much better handle on our assets across the enterprise, especially ghost assets that were costing us way too much in needless insurance premiums and taxes.*

**H. William Higgins, Chief Financial Officer**
