

Digital Work Instructions – Remote Guidance and Assistance

SAP® Certified Mobile App – works on SAP ECC and S/4HANA

Overcome Skills Gaps, Preserve Tribal Knowledge and Ensure Safety

Our Digital Work Instructions solution enables plants and facilities to preserve valuable tribal knowledge before it leaves for good. Veteran workers can digitally train, guide and mentor new hires and less-experienced counterparts at the work site through video conferencing. The solution makes it easy to share instructions, SOPs, multimedia files and more. Digital Work Instructions delivers instant collaboration and knowledge sharing from across the room, the country or the world.

Problems Solved

- Paper-based work instructions and SOPs
- Loss of tribal or institutional knowledge
- Skills gaps and training
- Errors and reworks
- Productivity and wrench time
- Safety compliance

Features

- Eliminate paper work instructions and SOPs
- Supports iOS applications
- Upload multiple work procedures from Excel spreadsheets at one go
- Runs on tablets, mobiles and desktops
- Rich-text editor for writing details in a work procedure
- Add URL attachments within a job instruction
- Integrates with and industry-standard hands-free devices, such as smartglasses and smartwatches
- Embedded library of 150+ work instructions, SOPs and digital forms

Functionalities

- Categorize digital procedures and instructions by industry, function, equipment and more
- Create work instructions and SOPs with What You See Is What You Get authoring tool
- Standardize formats across work instructions for consistency and ease of maintenance
- Contextual work instructions for work orders and operations
- Favorite frequently used documents and save a work-in-progress document as a draft before distributing
- Attach images, videos and visual aids
