

## RACE™ Dynamic Forms – No-Code/Low-Code Configurable Digital Forms

SAP® Certified Mobile App – works on SAP ECC and S/4HANA

### Create, Modify and Issue Digital Forms to Frontline Workers in Less Than 30 Minutes

RACE Dynamic Forms' low-code/no-code technology enables maintenance, warehouse and safety administrators to build and modify digital forms in 30 minutes or less. Users can create, edit and issue inspection and safety checklists, compliance forms, risk assessments, health questionnaires and more. You can leverage preconfigured forms or make your own. Easily deploy digital forms to frontline workers for immediate use in maintenance work orders, inventory management and other critical assignments.

#### Problems Solved

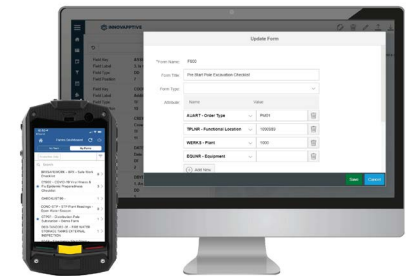

- Environmental, health and safety compliance
- Capturing and digitizing unstructured field data
- Low/no-value data
- Inefficient/inaccurate manual data entry
- Customizing desktop and mobile apps with no technical experience
- Managing and distributing safety and compliance forms or field inspection checklists

#### Features

- Eliminate paper forms, Excel files and manual data entry
- Supports Android, iOS and Windows applications
- Runs on tablets, mobiles and desktops
- Easy configuration and customization using no-code/low-code technology
- Intuitive, easy-to-follow workflows with touchscreens
- Works in Offline and Online modes
- Role-based access to forms
- Configurable field types and validations
- Includes 100+ pre-packaged and reconfigurable digital forms

#### Functionalities

- Convert paper-based forms into digital forms in minutes
- Embed forms into mWorkorder and mInventory, or use standalone
- Use RACE configurable field validation rules to ensure data accuracy
- Push changes in real-time to ERP systems
- Advanced field types like GIS, signature, attachments and scan field types
- Search forms, favorite them or start a new form entry
- Guide users with in-app form instructions
- View and reprocess pending submissions for sync in offline outbox
- Review form submissions for approval

#### Benefits

**100%**  
accuracy in field  
data capture

**50%**  
lower development  
costs

**75%**  
reduction in  
development time

**50%**  
greater inspection  
compliance

**50%**  
cut in form fill errors

**80%**  
fewer safety  
incidents

*Based on customers' best experiences.*
